Length of mobile base (m)	Until 1.2	Until 1
Depth (m)	Until 15	Until 15
Max payload	Until 250 kg per shelf	Until 250 kg per shelf

## Management software G-DOC

G-DOC, published by TEMREX, is best-in-class for managing your carousel storers in a demand-responsive way as well

- › automatic addressing and location management
- › traceability of consultations and borrowing of files
- › creation of files
- › remote monitoring of borrowers

## A 100% TEMREX service team

- › A national service network and a wide availability of parts to ensure a quick response time
- › A hotline for remote diagnosis and problem solving in man cases
- › Maintenance contracts adapted to ensure maximum availability

## 100% TEMREX solutions

Drawing on its experience and rigor, our team of designers today harmoniously combines technique and user-friendliness to offer you mobile shelving dedicated to your need.

Carousel storer MOBICLASS adapts perfectly to the available surface and to the characteristics of the products stored.

## Fire protection solution

MOBICLASS mobile shelving systems are frequently equipped with the BLOCKFIRE option and ACS software to protect the stored contents from fire and smoke (EI-30-S) and to control the environment (T,HR,VOC).

## The double deck mobile shelving system

In high spaces, the MOBICLASS can be equipped with a second filing level: two levels of mobile shelving are thus managed by a single base. Access to the second level is possible thanks to a staircase integrated into the structure.
