Solution acclaimed by architect firms

100% ELECTROCLASS solutions

The BICLASS pivoting cabinet is designed, manufactured, set up and serviced by our 100% ELECTROCLASS teams. This expertise means we can offer you premium-quality products and services.

Optimize your filing

A large choice of organizing features is available for the BICLASS so that absolutely all your files can be stored. Everyday file formats (A4 file, A5 datasheets) and special formats (small and large)

Style dedicated to your business organization!

The cabinet comprises two filing blocks pivoting back-to-back on a vertical axis. As the mobile section is incorporated into a stationary piece of furniture, quarter-way pivoting rotates the sides (which act as doors) or any of the filing cabinets required.
