

Electroclass values

At Electroclass, we are convinced that reliable information and optimizing your storage and logistics flow management are key to ensuring the success of your business. This is why we have been imagining reliable, secure bespoke logistics solutions for over 38 years now which ensure you reach your productivity targets and, at the same time, enhance your working conditions.

As a long-term partner, we are more than aware that human relationships and service quality are paramount to the success of our joint projects. With our 32 Electroclass technicians working across France, our day-to-day focus is on combining quality with swift action. In short, you're in good hands!

G-BOX

Real-time secure and analyse your consumption data!

G-BOX, published by Electroclass, is best-in-class software for remotely managing, optimizing and configuring all our secure vending machines.

Find out more about our G-BOX software on:
www.electroclass.com

TITAN carousel storer

- Weight: up to 500 kg per shelf
- Effective storage: up to 180 m² / 30 m³
- Footprint: < 7 m²
- Height: up to 9 m

The TITAN carousel storer is particularly well-suited for storing and securing small items which require quick access.

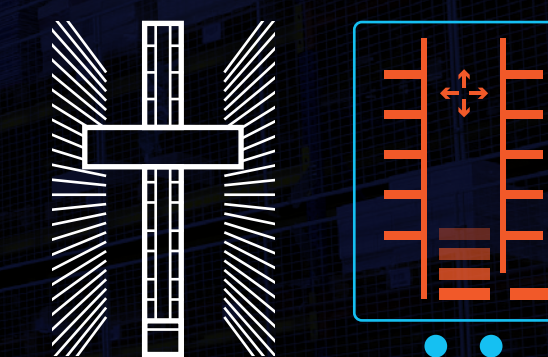

JUMPER storage tower

- Weight: up to 500 kg per shelf
- Effective storage: up to 300 m² / 80 m³
- Footprint: < 13,7 m²
- Height: up to 11,5 m

The JUMPER tower is the perfect solution for automating the storage of heavy, heterogeneous-volume components. This tower can handle an effective load of 60 tons.

SILO ASRS

- Weight: up to 315 kg per shelf
- Effective storage: up to 1000 m² / 800 m³
- Footprint: > 50 m²
- Height: up to 13 m

The SILO ASRS, consisting of two racking systems and a self-propelled column, is the perfect solution for storing your servicing consumables and/or your archives.

WMS G-STOCK

Manage your storers and your warehouse dynamically!

G-STOCK, published by Electroclass, is best-in-class WMS for:

- › managing stock and spaces
- › managing items, packaging types, etc.
- › tracking all movements
- › managing batches, expiry dates, serial numbers, secure access, WiFi, etc.
